

COOKIE POLICY

Effective Date: July 22, 2026

Last Updated: July 22, 2026

This Cookie Policy explains how B2B Voice LLC, operating under the B2BVoice brand ("B2BVoice," "we," "us," or "our"), may use cookies and similar technologies on the B2BVoice website.

This Policy should be read together with our Privacy Policy.

1. What Are Cookies?

Cookies are small files that a website may store on your browser or device.

Websites may use cookies and similar technologies to:

- Operate website features;
- Maintain security;
- Remember preferences;
- Understand how visitors use a website;
- Diagnose errors;
- Measure website and marketing performance.

Similar technologies may include pixels, tags, local storage, software development kits, and server logs.

2. Cookies We May Use

Strictly Necessary Cookies

These technologies support essential functions such as:

- Website security;
- Fraud and abuse prevention;
- Network management;
- Form operation;
- Session management;
- Saving privacy choices.

Because these technologies are necessary to operate the website, they may not be capable of being disabled through a website preference tool.

Functional Cookies

Functional technologies may remember choices such as:

- Language;
- Display preferences;
- Form progress;
- Previously selected settings.

Disabling them may reduce website functionality.

Analytics Cookies

If enabled, analytics technologies may help us understand:

- Which pages are visited;
- How visitors reach the website;
- How long visitors remain;
- Which features are used;
- Whether technical errors occur.

We may use this information to improve website performance and user experience.

Advertising and Marketing Technologies

If enabled, advertising technologies may be used to:

- Measure advertising performance;
- Understand whether an advertisement led to a website visit;
- Limit repeated advertisements;
- Support audience measurement or targeted advertising.

Depending on applicable state law, the use of some advertising technologies may constitute “sharing,” “sale,” or targeted advertising even when personal information is not sold for money.

3. Third-Party Technologies

Some cookies or similar technologies may be operated by third-party providers that support hosting, security, analytics, communications, embedded content, appointment scheduling, or advertising.

Third parties may process information according to their own privacy policies.

The technologies used on the website may change as we add, remove, or update website features.

4. Managing Cookies

You may manage or delete cookies through your browser settings.

Most browsers allow you to:

- View stored cookies;
- Delete cookies;
- Block all or selected cookies;
- Block third-party cookies;
- Receive a warning before a cookie is stored.

Blocking cookies may affect certain website features.

Where B2BVoice provides a cookie preference tool, you may use that tool to update your choices.

Where required by applicable law and technically supported, B2BVoice will recognize valid opt-out preference signals such as Global Privacy Control.

Because there is no universally accepted standard for browser “Do Not Track” signals, our website may not respond to every Do Not Track signal.

5. Updates to This Cookie Policy

We may update this Cookie Policy when:

- Website technologies change;
- Service providers change;
- Our practices change;
- Legal requirements change.

The “Last Updated” date identifies the latest version.
